

I first had an opportunity to hear Darin's vision for Uruguay in early 2008.

I was immediately impressed with the extreme passion for missions, especially for missionaries that are already in the field but are in need of spiritual and financial support.

God gave Darin the vision for Catapult Missions in 1998 while in prayer, and I truly believe that God has great things in store for their family as they follow God's direction in building Catapult Missions.

As a business owner I noticed a need for help to organize and help structure what was to become Catapult Missions.

As a committed financial supporter and board member of Catapult Missions, I hope to see a missionary training center in operation in Uruguay in the very near future. Please pray for Catapult Missions and consider becoming a supporter as God leads you.
